

The Ultimate VoIP Solution for ILECs

Access the Best Carriers. Improve Your Rates. Take Control with thinQ.

Top Industry Carriers

We manage frustrating carrier negotiations so you can focus on what matters most—your customers. With thinQ, you get:

- ✓ On-demand access to 40+ top carriers
- ✓ To preserve your existing network infrastructure
- ✓ Real-time CDR monitoring and SIP tracing tools
- ✓ Wholesale long-distance and wireless rates

Control & Transparency

As a registered CLEC, we understand your concerns around call quality, network controls, and monitoring. That's why we designed our platform to deliver unparalleled transparency and control over your call routing. Easily enable or block certain carriers while our platform optimizes routing within your desired parameters. Real-time CDR monitoring and SIP tracing tools help you isolate and fix any issues instantly.

Wholesale Long Distance Rates

We manage more than 500 million minutes per month in long distance termination. With the power of collective bargaining, we bring you wholesale rates for your long distance or wireless calls. Whether you have dozens of minutes or millions of minutes, every thinQ partner benefits from our low rates
