# Ultimate VoIP Solution | ILECs

Access 40+ Carriers. Increase Your Margins. Eliminate Outages.

Access Top Industry Carriers

We manage frustrating carrier negotiations so you can focus on what matters most—your customers. With thinQ, you get:

- ☑ On-demand access to 40+ top carriers
- ☑ To preserve your existing network infrastructure
- ☑ Real-time CDR monitoring and SIP tracing tools
- ☑ Wholesale long-distance and wireless rates

Unparalleled Control & Transparency

As a registered CLEC, we understand your concerns around call quality, newtork controls, and monitoring. That's why our portal delivers unparalleled transparency and control over your call routing, allowing you to enable or block carriers to best suit your business needs. Real-time CDR monitoring and SIP tracing tools help you isolate problems instantly, and our dedicated support team is here to help you.

Wholesale Long Distance & Wireless Rates

Lower your rates and increase your margins. With the power of collective bargaining, our platform automatically selects optimal carriers in real time, delivering wholesale rates on your long distance or wireless calls. Whether you have dozens of minutes or millions of minutes, every thinQ partner gets our best rates.
